THE FACE

The human face is the skin on the head. On it we find the ears, the nose, the eyes and the mouth. When a person looks at you; they first see our face, as such our face is very important to consider if we want to have good appearance.

Care of the Face

We ought to wash our face three times daily. All other parts of the body is usually covered with cloth but our face is not covered with clothes so we ought to wash it more often to remove the dirt on it. We should wash it with soap and face cleaning lotions. Hairs on the face should be well taken care of like hairs on the head.
