Bootstrap Colours

Bootstrap has some contextual classes that can be used to provide "meaning through colours".

Text Colours

The classes for text colours are:

.text-primary	Blue
.text-success	Green
.text-danger	Red
.text-secondary	Gray
.text-white	White
.text-dark	dark gray
.text-body	default
.text-light	light gray
.text-warning	yellow
.text-info	light blue

Background Colours

.bg-primary	Blue
.bg-success	Green
.bg-info	light blue

.bg-warning	yellow
.bg-danger	Red
.bg-secondary	gray
.bg-dark	dark gray
.bg-light	light gray

Note that background colours do not set the text colour, so in some cases you'll want to use them together.
