Bootstrap Spinners

To create a spinner (a spinner is also called a loader) in Bootstrap 4, use the .spinner-border class:

```
<div class="spinner-border"></div>
```

We can use the contextual markers to give colour to the spinner object. For example:

```
<div class="spinner-border text-
primary"></div>
```

To create a growing loader in Bootstrap 4, use the .spinner-grow class.

```
<div class="spinner-grow text-primary"></div>
```

Use the size identifiers to give the loader a big or small size:

```
<div class="spinner-border spinner-border-
sm"></div>
```

Loaders can also be added to a button:

```
<div class="btn btn-primary">
 <span class="spinner-border spinner-border-
sm"></span>
 Loading..
</div>
```
