List Groups in Bootstrap

List groups are simply collections of items that are listed in a column form.

To create a basic list group, we use the .list-group class in the <ul> tag and the .list-group-item in the <li> tag.

```
<ul class="list-group">
 <li class="list-group-item">One </li>
 <li class="list-group-item">Two </li>
 <li class="list-group-item">Three </li>
</ul>
```

To indicate the active list item in the case of linked links, we use the .active class in the <li> tag.

```
<ul class="list-group">
 <li class="list-group-item">One </li>
 <li class="list-group-item active">Two </li>
 <li class="list-group-item">Three </li>
</ul>
```

To create a list group that would have a grey background colour on hover, we use the .list-group-item-action with the

```
<ul class="list-group">
 <li class="list-group-item list-group-item-
action">One</li>
 <li class="list-group-item list-group-item-
action">Two</li>
 <li class="list-group-item list-group-item-
action">Three</li>
</ul>
```

To create an unclickable list item, we use the .disabled class in the <li> tag.

```
 <a class="list-group">
 <a class="list-group-item disabled">One</li>
 <a class="list-group-item list-group-item-
action">Two</li>
 <a class="list-group-item list-group-item-
action">Three</li>
</div>
```

We use the .list-group-flush in the <ul> tag to remove the outer borders and rounded corners of the list group:

```
<ul class="list-group list-group-flush">
 ...
</ul>
```

List by default gets arranged vertically. To make list groups to arrange in horizontal pattern, we use the .list-group and .list-group-horizontal classes.

```
<ul class="list-group list-group-horizontal">
 ...
</ul>
```

You can use the colour suffixes to give a background colour to the items of a list-group.

```
<ul class="list-group">
 <li class="list-group-item list-group-item-primary">One</li>
 <li class="list-group-item list-group-item-warning">Two</li>
 <li class="list-group-item list-group-item-danger">Three</li>
</ul>
```
