What is Bootstrap

Bootstrap is a free front-end framework for faster and easier web development.

Bootstrap includes HTML and CSS based design templates for typography, forms, buttons, tables, navigation, modals, images, carousels and many other, as well as optional JavaScript plugins.

Bootstrap also gives you the ability to easily create responsive design.

You can either download bootstrap from the bootstrap official website or host directly from a CDN (Content Delivery Network) website.

To download and host Bootstrap 4 yourself, go to https://getbootstrap.com and follow instructions there.
